CIS 241 - Dynamic Website Development

3 Credit Hours

This course addresses the high level of integration of graphics, programming, and dynamic data/information supplied by database management systems (DBMS). The coursework includes discussion and integration of graphics, still images, client and server side scripting languages and data supplied by a DBMS. A PHP based electronic portfolio will be developed by each individual student during the course to provide potential employers with the student's resume, picture, course syllabi and samples of a student's web programming work in PHP at Southeast Tech.

Prerequisites: CIS 130, CIS 196
